Measure: HB3202

Dear Legislators,

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which seeks to mitigate the detrimental effects of light pollution on our environment.

House Bill 3202 builds on what other states have already done. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
