

Submitter: Jessica Greene
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202
To Oregon Lawmakers:

I hope that you will be a yes vote for House Bill 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

This is not a new concept, and in fact other states have already implemented such measures. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
