Measure: SB348

I oppose SB 348. While this bill only supports a study of gun control, we all know what the intended result is - control of legal weapons owned by law-abiding citizens. Not only do citizens have the right to own guns but there are already numerous regulations in place and background checks required to purchase firearms. If we would just enforce the laws already on the books and stop being soft on gun crimes, we would not be in a position to even be talking about this study. I can tell you what a study will show - criminals do not get their guns legally. Taking away my guns will not stop criminals. Please do not pass this bill.

Thank you.
