

Submitter: George Penk
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Thank you for your work on this difficult task. I do urge you to not weaken the intent of measure 114. As a retired teacher it doubly pains me to see the effects of gun violence on our society but also the resources we are forced to spend to try and fortify our schools instead of looking closer at the access to military-style weaponry.

Please help.
