

Submitter: Sean Larabee
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

It is horrifying that an end run of this nature is even being contemplated; another nibble into the foundations of our democracy under the justification of 'but our cause is just' that should not be done by either end of our political spectrum.

Let the judiciary do its work. If 144 is ruled constitutional then it is done. If ruled unconstitutional then look at the issues raised, rework and begin the process again. DO NOT layer a second law on top. Between that, the 7pm on a Friday submission, the 5:00pm Monday hearing -- this reeks of underhanded and borders on malicious lawmaking.
