

Submitter: Danny Johnson
On Behalf Of: Self
Committee: Senate Committee On Judiciary
Measure: SB348

It is important for the legislature to let measure SB 114 adjudicated through normal channels before impacting the state of Oregon with additional draconian measures to confuse not only the basic issues but to not interfere with the judicial oversight.

Doubling up on issues that appear to be clearly unconstitutional shows the lack of consideration not only for the historical documents of our country but also to the freedoms of an American public.

Finally, presenting such a bill in the late hours of a Friday night shows the Senate leaderships disdain for Oregonians who expect to see a fair legislative process where major issues such as gun control can be discussed reasonably and rationally by parties who might possibly disagree.

It is my suggestion to indefinitely table this Senate bill.
