

Submitter: Aisaya Corbray

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB847

I am writing in support of SB 847. As an Oregon and Portland Resident I would appreciate seeing the government highlight these opportunities and do what they can to stretch the public dollars being invested in affordable housing. All affordable housing projects should be exempt from the commercial prevailing wage rates, as they add exorbitant cost measures to projects and often require additional public funding to absorb. This is not an efficient use of public dollars, and we expect the policy makers to set laws that promote the development and decreased cost of affordable housing development.
