

Submitter: John Miles
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

A registration and permit on its face will infringe upon possessing and owning arms. In plain words, permits allow something that is illegal to be legal. The right to bear arms shall not be infringed. This emergency action is not needed at this time. This study sets up the administration of a law that has pending injunctions for its Measure 114 legality, and runs around the due process of law. It is supported by sensationalizing a catastrophe, fear mongering, and hearsay rather than legal argument and adjudication. You must act not to allow congressional powers to encroach upon the balance of state powers bestowed on the Judicial Branch of the State of Oregon. This decision will determine my faith in balanced government and representatives' adherence to their oaths of office. I'm disappointed that the bill is about to leave the committee that protects the Judicial Branch from Executive Branch overreach. Oregon may not continue as a state of the union if our laws can supersede the law of the land and covenant agreed to in the Constitution of the United States of America.
