

Submitter: Marcus Hairston  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

To whom it may concern,

I would first like to applaud you for your efforts to address community issues and long standing strife throughout the state. However a restricted set of rights for the law abiding citizenry is not the answer. Please focus more on the root causes of the issues for whatever outbreaks/ upticks in violence you may be trying to fix. This state was soo beautiful when i first moved here,Portland especially,I had never been to such a clean big city with such nice folks . It has changed in a scary way and these changes are not firearm related. Again, I don't want to down anyone but we need to focus on other things! Thanks in advance!
