

Submitter: Richard Weill
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB528

As a practicing lawyer of 41 years, very much involved in protective proceedings, I find it terribly inappropriate to introduce/advance legislation like this without heavily involving the Oregon State Bar legislative affairs office, the elder law section of the bar, judges, and others who regularly are involved in this work. This should be tabled for a future session after a proper work group is formed with input from all affected parties.
