Measure: HB3086

I oppose the proposed re-structuring of the Fish and Wildlife Commission. NO ON HB 3086. It would be a big step backward for humane and wise wildlife management for all Oregonians, and would be less fair to those who prefer hiking, camping, and wildlife appreciation as opposed to hunting and fishing. It would discourage diversity on the F and W Commission, and over represent some state areas relative to their populations. This would not be fair! The Commission should be fair and balanced between interests, and not manipulated politically for the advantage of limited interests.
