

Submitter: Heather Redwine-Walter
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3513

I agree with the idea of safe storage for people who are in the middle of a crisis, this has the potential to prevent suicide.

The part of this bill relating to the CHL training needs to be removed. There should be no additional training added to the CHL requirements, it is unnecessary and will make it so that training some received already like the NRA courses would not be valid. If you think it is important to get this information to CHL holders I recommend creating an information pamphlet and sending it to them with their cards.

We do not need to spend money on creating public storage spaces, there are organizations that are already doing this work.
