

Submitter: Ryan Bronson

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3086

RMEF has more than 14,000 members in the state of Oregon. We support HB3086 and the -4 amendment. The ODFW commission is tasked with mandating the fish and wildlife of Oregon, and they are distributed across the landscape and ecoregions of the state without regard to the man-made political lines of Congressional districts. To reflect the geographic diversity of the ecoregions and the biological diversity of the species under the management of ODFW it is most appropriate for commissioners to represent the major river basins that the state's resources are naturally organized along.
