Measure: HB3086

Dear Committee Member

As a proud conservationist and Ducks Unlimited volunteer I support the river basin management area model for the ODFW Commission (HB 3086-4 amendment). My reason for support is that the commission represents fish and wildlife and makes wildlife decisions, and its members should equally represent the geography and natural resources throughout Oregon. Using the watershed boundaries is a way to accomplish this. This commission is not political and should not be stacked according to population centers and boundaries.

Thank you for your consideration.
