

Submitter: David McCord

On Behalf Of: my self

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HB3086

I support HB 3086 with the - 4 amendment. The river basin management area model for the ODFW Commission SHOULD help decrease the unbalance that generally pits the Willamette Valley, the urban area, versus the too often destructive urban/rural split in Oregon.

The Willamette Valley has the money, the population, and the votes while the rest of the state has the land area and not much of the population but does have a hands-on perspective of what is good for there respective geography.

Best wishes as you tackle this issue and thank you for your efforts on our behalf.
