

Submitter: Matthew Snyder

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3086

I support the river basin management area model for the ODFW Commission therefore I support HB 3086 with the -4 amendment. This management model best aligns with representation across the state in the areas where fish and wildlife are actively managed. The congressional districts do not align well with wildlife management as they are correlated with metropolitan areas and do not reflect representation of fish and wildlife needs across the state. The river basin management area is a well thought out model that provides much better geographic representation. Please move forward with HB 3086 with the -4 amendment.

Best Regards,
Matthew Snyder
