

Submitter: Claudia Sanzone

On Behalf Of:

Committee: House Committee On Education

Measure: HB3198

Im a retired Title 1 Reading / Literacy specialist. I have spent thirty plus years helping struggling students how to read. We MUST have students reading at or above grade level by grade three if not long before. Teachers need training on best practices for teaching this subject. Also with the diversity of learners in each classroom they need institutional assistants trained in this area to support students. Small group instruction in reading was key to getting students to grade level and above. Please pass this bill. Claudia Sanzone
