

Submitter: KATRINA ANDERSON

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

As a CPA I urge you to seriously consider this bill. The modernization of your platforms can't wait any longer. We need a system that works across all divisions. We want businesses to come to Oregon and not be hampered by antiquated processes. Businesses want to comply, please make it easier for them, and their paid professionals, to do just that. The longer you wait to fund this the harder it will be to make the necessary changes. Look at the unemployment system disaster...yes it was a disaster. Look at the DMV situation. You simply can't continue to delay these things you are only making it harder and worse for everyone.
