

Submitter: Jeff Hassannia

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

For small businesses Oregon is a challenging location to start and run a business. Instead of continuing to feed and grow the size of government, let's reduce budgets, decrease headcount, decrease onerous legislation, and put in metrics to measure actual customer service and support to the people. Use the resulting cost reductions to decrease business costs (for example, annual LLC state dues) and increase incentives to start a business (for example, more grants, tax incentives, etc).
