

Submitter: Kasheen Mowatt

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

Small businesses move fast and often the bottleneck for work being done is a 3rd party over which the business has no control. The government is notoriously slow and a major bottleneck for businesses. It would be in the best interest of the constituents to use some of the many modern technologies to optimize interactions with the government, as ethics and morals allows. Please consider additional money being used to improve the Corporation Division.
