

Submitter: tim hutchings

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

I've never done this before but:

Based on what I know I'd vote against the "Oregon Corporation Division's budget request." The corporate registration system looks out-dated but it works fine for my purposes. I show up every once in a while, go through a couple of screens clicking buttons, and I'm done. I can pay for registration online, all is good with the world. I don't need to do this from my phone and I can't imagine a way to do it faster.

If a thing ain't broke then don't fix it. Wait until outside pressure forces and update or makes it painfully easy and cheap.
