Macy Farms LLC of Culver Oregon would like to add our name to the list of supporters in favor of SCR 3, which would designate the potato as the official vegetable of Oregon.

Macy Farms is a seed farm that sells seed potatoes to other Oregon growers as well as growers in Washington State, California, Nevada, and Arizona. The potato industry in Oregon brings in over \$200 million dollars per year and Oregon supplies approximately 25% of the US Potato French fry exports. Oregon Potato farmers donate over 1 million pounds of Potatoes to the Oregon Food Bank annually and make other donations to their local food banks as well.

It is an honor and privilege to add our names to the list of supporters of SCR 3 and helping to make the number 1 vegetable in Oregon the official State Vegetable.

Thanks

Mike Macy
