On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

I strongly support the Oregon Corporation Division's budget request. I interact with the Division on an almost daily basis. I have had nothing but positive experiences interacting with Division employees. However, for the past several years their hands have seemed tied due to processing delays for filings that are faxed or mailed by necessity. Only online filings are processed in a timely matter. Let's bring the Oregon Corporation Division into the 21st Century.
