

Submitter: Sebastian Aguilar

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

State and Federal filings have always been a labor burden on small businesses and anything government can do streamline, simplify or ease these processes would be very welcome. The strategies funded in HB 5035 seem to be a step in the right direction, allowing businesses to focus on their business by making filings and access to information quick and easy.

Thank you for your support.
