

Submitter: Michael Pitts-Campbell

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

I simply wish to have it noted that I believe that any decrease in funding that would affect the Corporations Division, especially those people dealing with nonprofit organizations, would be detrimental to Oregon. Nonprofit organizations contribute greatly to the quality of life in our State. For a decade, my wife and I were part of the committee which ran the nonprofit Southern Oregon Kite Festival. In 2015 I rescued the nonprofit Southern Oregon Disc Golf Association from administrative closure and in 2021 had to formally dissolve that organization. In all three instances the polite and informative employees in the Corporations Division made the required work feasible for someone who had never, in 70 years, dealt with corporate organization.

Thank you for considering my opinion. If additional taxes are required to maintain such efficiency, I am one of those who are willing to pay them.
