

Submitter: Jeffrey Kline

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB2613

My wife and I are currently shopping for a new car, preferably a plug-in hybrid. The State rebate is definitely a factor in what car we will buy and when. Our goal is to improve our energy efficiency every time we purchase a car. This is a big deal for our communities, Oregon, the US, and ultimately the planet. I urge you to support this measure.
