

Submitter: Sandra Mason
On Behalf Of: Seven Sisters Sanctuary
Committee: Senate Committee On Rules
Measure: SB1087

This bill along with ORS 197.307(4) are opening the floodgates for urbanization of necessary farmlands. I am personally affected by this bill. If these bills are allowed to develop EFU and E30 farmlands, then where does it stop? Will farmers be allowed to develop large acreage for residential housing and commercial development? These bills are not "clear and objective". I object to both, allowing one to stand and not the other is unacceptable.

Sandra Mason
