

Submitter: Traci Hensley  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3593

Chair Fahey and committee members,

Please vote NO on HB3593.

I see nothing but confusion for voters and more potential for election errors.

Having the same name on a ballot multiple times could very well confuse voters who don't follow how the process works and there is the potential for multiple boxes to be checked for the same candidate.

I don't believe any benefits from the post-election data analysis would be worth the potential chaos created by this new way of balloting.

This data could be acquired by polling and should not burden the elections officials.

Please do not move this bill forward.

Thank you for your consideration.

Traci Hensley
