

Submitter: Blaine Ackley

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3113

Dear Chair McClain and Members of the Committee,

We have certain roads in our area which are state roads but in fact they are the main arterials within the city also. Without a special appropriation the DOT simply does not have the funds to be able to improve these roads for pedestrians and bicyclists. How can we have a livable community if it is unsafe to walk or bicycle on certain streets or thoroughfares?

This bill will provide the DOT with the funds necessary to maintain and improve these roads for all of us. I fully support this bill and I hope that you do also.
