

Submitter: Brynn Moorhead

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: SB545

Please support bill SB 545 because passing this bill would mean a lot to me as well as many others who also want to support the cause of lowering and eventually eliminating plastic pollution from our planet. Seeing plastic along sides of streets and on beaches is a difficult thing to witness and that's why allowing people to bring their own food containers in order to replace the single use plastic to-go containers that contribute to the crisis of pollution would be a very impactful and important thing to do.
