

Submitter: Nate Hildebrand

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1089

I believe making motions toward a country-wide Universal Health Plan is essential. Getting it working for the state of Oregon is a good start. We need Universal Health plan because people change jobs and our health care can't be tied to one employer or another, it should be kept beyond employment - perhaps employers can offset employee costs of the plan, but we need to be able to keep our doctors when we change jobs (or become jobless for a time).
