

Submitter: Donna Erbs  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: SB1089

I am writing in support of SB 1089. It is imperative that this next important step toward the goal of providing universal health care for all people in Oregon be taken. The people of Oregon are quite clear that they demand health care that is free, high quality, patient centered, and free from a profit or even "nonprofit" motive. The time is now. I urge you to legislate this governing board into being.
