

SB 1089: Testimony in SUPPORT

To Senate Committee on Rules

Dear Chair Lieber, Vice Chair Knopp, and Members of the Committee:

The people of Oregon have spoken by making access to health care a constitutional right. Support for **SB 1089** will put Oregon on the path to achieving the goal of health care equity by 2030. Establishing a **Universal Health Plan Governance Board** that will present a **Universal Health Plan** to the Legislative Assembly and the Governor is an essential step down that path.

I urge you to vote **YES** on **SB 1089** and support the provision of high quality, affordable health care for all Oregonians.

Sincerely,

John Detweiler

Deschutes County
