

Submitter: Ben Schreiner

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1089

I write to support SB 1089. I both own a business and have a chronic health condition.

As a business owner, I support universal health care because it would save my business money, while protecting the health of all my employees--full-time and part-time alike.

As someone with a chronic health condition, I support universal health care because I know firsthand the financial burdens of our current health care system. Simply put, no one should have to face the prospect of financial ruin in order to access health care.

Please support SB 1089.
