

Submitter: David denman
On Behalf Of: SB 576
Committee: Joint Committee On Ways and Means
Measure: SB5506

Being the Father of a quadriplegic has given me an insight on how this bill will assist people with disabilities. My son was able to pursue his career working for a international company, Intel. The funds given to him from the state have been used effectively please keep in mind these funds allow him and others with disability to join the work force and be productive contributing members of society
