

Submitter: Spence Wooley

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: SB543

I strongly support this! Plastic and chemical waste will be one of the greatest shames and scourge of our generation's history. Let's reject the laziness and inconsideration of doing things because it is convenient and cheap. We must work and fight for a better society every step of the way. Please pass legislation that considers our health and wellbeing above profited ignorance
