Chair Janeen Sollman
Senate Energy and Environment Committee
900 Court St. NE
Salem, OR 97301

Re: WM supports HB 3220A

Dear Chair Sollman, Vice Chair Findley, Members of the Senate, Energy and Environment Committee:

WM urges your support HB 3220A, which will ensure the continued success of Oregon's E-Cycles Program.

WM is the leading provider of recycling and environmental services in the Pacific Northwest and North America. In Oregon, WM provides innovative sustainability solutions for residential, construction, commercial and industrial customers, from curbside collection with clean air trucks to waste reduction programs that turn food scraps into compost for healthy gardens.

As you know, stakeholders were asked to bring a solution back to the legislature in 2023 that would ensure stability, convenience, and equitable access to electronic waste collection sites throughout Oregon where these materials are safely disposed of. We want to thank DEQ and the other stakeholders who participated in the inclusive, six-month stakeholder process to identify changes needed.

Thank you for your consideration and for your support of HB 3220A.

Sincerely,

Chris Reigelsperger
Manager - Government Affairs, Public Sector Solutions
Pacific Northwest/British Columbia
