

Submitter: Connor Kelly

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: SB543

I hate styrofoam and polystyrene. This bill is better for our earth and I don't like it. I don't like it because we have millions of other ways to package goods yet we use something that destroys our environment every day these substances are styrofoam and polystyrene plastic I am in seventh grade and I am not asking for my generation but for the generations ahead of me.

Sincerely,

Connor Kelly
