

Submitter: Terry Trapp
On Behalf Of: CGCC
Committee: House Committee On Higher Education
Measure: SB482

I strongly support this bill, as a Commercial pilot, Certified Flight Instructor and board member of the Columbia Gorge Regional airport, I witness first hand the shortage of FAA licensed mechanics. This training program will allow students that receive their training to take the FAA exams and directly receive job offers from Alaska airlines as well as other companies. I feel this is an excellent opportunity for our local students.

Thank you,

Terry Trapp
