

Submitter: Melaniya Huff
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: HB2279

My Testimony:

Oregon is becoming a destination for death. Come to Oregon and will give you a free abortion. Come to Oregon for a suicide prescription. Who wants to come and see a state torn apart by rioters, so we fill our hotels with death instead of cleaning up the state.

Oregon is on life support, and this is not an answer for Oregonians. We must quit taking on the problems of the world and do what is best for Oregonians.

If it passes by the House, I believe it may be abused. So, I will say NO.

Thank you.

With respect, Melaniya Huff.
