

Submitter: Freddy Saxton
On Behalf Of: Oregon Realtors
Committee: Senate Committee On Finance and Revenue
Measure: SB976

Housing in Oregon has become prohibitively expensive for a vast amount of residents, and SB 976 will only further exacerbate the problem. We need to take measures to make home ownership more affordable and attainable, not more expensive and cumbersome. History has shown that measures like this one always result in a trickle down effect which increases housing costs not only for homeowners, but for tenants as well. Please help keep homeownership a worthwhile and affordable investment by soundly rejecting SB 976.
