

Submitter: Anne McNamee
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1089

Thank you for an opportunity to voice my support for health care in our state. Oregon provides healthcare for my family. We rely on a small business for our living, and it is not possible for it to provide for the health care for its employees. The way of the future for a healthy community is to provide for their health care. There are many in our community who will benefit from the peace of mind and support a strong healthcare system offers its community.

Thank you
