

Submitter: Royle Johnson
On Behalf Of: Oregon State Fair Grounds
Committee: Joint Committee On Ways and Means
Measure: SB5506

I commute between Salem and Portland a couple times per week. When the "Big One" hits and 40,000 people are stranded on a earthquake broken I-5, you'll need a functioning place in the mid-valley for temporary shelter. They are totally over-due for a massive earthquake and we don't have the infrastructure to respond. The Fairgrounds are centrally located and have the room to temporarily house people. PLEASE do the right thing here and be prepared.
