

Submitter: Vivian Young
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1089

Health care for every Oregonian is urgently needed.

Sen Hansell, Here is a story from our district:

A Hermiston married father of 2 who has been unable to work for quite some time recently had a lung transplant that is, at this time in his treatment, already a million dollar procedure. No one in our state should face such financial odds in the odds for physical survival.

To all senators on this committee:

Oregonians voted that Healthcare is a human right. Honor that vote and continue the process to make healthcare for every Oregonian a reality.
