

Submitter: Amy Wooden

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

Knowing the state fairgrounds are available in an emergency -- especially for farm animals -- is very important to those affected by the Beachie Creek Fire and other disasters in this area. Many people were able to save their animals, because the barns were made available during and after the emergency. Please support SB 894, so we can continue to count on the availability of this wonderful resource!
