This is a huge mistake! Letting unqualified, uneducated people expose the general public to radiation is a lawsuit waiting to happen. I understand the two bozos in charge of this are dentists. Looking to save themselves on wages. That's all this is about. This has nothing to do with patient safety, or concern for the general safety of the public. I can't even believe this has made it this far. This is an absolute nightmare. I for one will be asking any doc that I work for or go to if his dental assistant has been properly trained or some bozo he pulled off the street. Please don't let this happen.
