

Submitter: Elizabeth Charley

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB2996

This bill is terrible !! The safety of dental patients are at risk! I sure would not like that in my dentist's office! I look for the board of dental radiology license when I go to the dentist! YOU NEED to pass the requirement for dental assistants in radiology or you do not radiate any patients in your dental office at all!! There is no free pass on this, the sponsors of this bill are not being responsible, just being lazy ! Then the dentist is certified to take X-rays and that's not going to go over WELL !! Upsetting schedules! Do not pass this Bill does not protect the patient or the dental assistant when ligation could occur!!
