Committee: House Committee On Housing and Homelessness

Measure: HB3501

HB3501 proposes a terrible policy removing the rights of the people to control the public spaces in their communities. It is a perversion of civil order to give “the right” to use community space as a permanent encampment. Parks and public spaces are intended for the enjoyment of the residents and not to be open air drug markets. Look no further than the filth and chaos in Portland. Please, with a straight face, tell your constituents you want to bring crime, drugs, and filth to their community spaces on a permanent basis. Any support for this monstrosity of a bill does just that.
