My Name is Brody Frisby. I am 31 years old. I was in a car accident in 2018 that changed my life. The hardest thing for me was realizing that being a single father of two boys, I was not going to be able to provide for them the way I wanted. I struggle with not being able to work because I dont want to loose my health care. I want the opportunity to work for my own self worth but also to be able to give my boys the life they deserve.
