

Submitter: Wiley Nelson

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I encourage everyone to oppose this bill in the strongest possible terms. There's no need to recount the years of dealing with dangerous, drug addicted and mentally ill people encamped in front of our homes and businesses anymore because everyone has been experiencing the same thing. The failure of public camping as a policy to alleviate homelessness is complete and devastating, and the time to implement mandatory sheltering has long past, but is better late than never. Please DO NOT pass this bill, we have no faith in this type of performative activism anymore and no stomach for more failed public policies.
